Make a web app using Flask

Flask-App-001

1. **app.py**
2. **templates** folder
   - Index.html
   - greet.html
   - login.html
   - secure.html

Tyler
Jane → templates
Mike → app.py

Variable name:
name
user

Branches:

Tyler --> dev
Jane --> xv-01-htmls
Mike --> xv-02-code

Remote repository: https://github.com/TylerCounter/project-xv

Day 1:

Jane works on **index.html**

Mike works on **app.py**

Day 2:

Jane works on **greet.html**

login.html
secure.html

Mike works on **app.py**

Day 3:
